General Note.—The Number of Hours given in the last column does not in numerous instances, as appears by the Returns received at the National Debt Office, show to anything like the full extent the time occupied in transacting the whole business of the Banks; the attention of the Officers and Clerks being much occupied with Correspondence, attendance on Trustees and Managers at their meetings, half-yearly Balances of Accounts, preparation of Returns to the Commissioners and to Parliament, and various incidental matters in addition to the ordinary business arising from receipt and payment of money.
